“ Elliot was more than a mentor for me. His leadership and encouragement gave me opportunities to try new experiences and helped me develop skills to work in an administrative role with the State of Wisconsin’s refugee program. I will always remember him as a person with leadership skills, a great sense of humor, and probably, the best “boss” as well as a great friend. Barbara Weber

“ Taking care of Elliot brought me joy everyday. He was never afraid to tell someone how much he loved them and he always put others above himself which is the definition of love. I always tried to remind Elliot to give himself the grace that he gave others and it was so nice to see him doing that. I truly appreciate Mindy and the family for trusting me to care for Elliot, I developed a bond with him that I will never forget.
