“ *I am very grateful to have been a part of Mary's life. She made everyone feel welcomed and special. She listened to me and made me feel heard and as a small child this made me feel very much loved. I was lucky to have known Mary since the age of 2 and she treated my brother and I as if we were her own. Her patience was enormous. She taught me how to ice skate, swim, ride a bike and later on driving lessons in her BMW. Essentially, Mary was there at all big milestones and was a huge influence on who I am today. Two days ago, I found an old email from 2016. She had replied to an email telling her about how about how I was going back to school to get my Masters. Her reply was brief but stated when I came back home to visit my parents to let her know so we could do a meal at Camp Schuman. I am pretty sure food is Mary's love language to others. So, Phillip next time I am in town don't be surprised when I come knocking at your door, it's an old habit that I am no ready to give up yet. There is so much more I can say about Mary, but I am sure this character limited. She will be missed, and I am grateful for her friendship and all the wonderful memories.*

“ Our hearts are breaking with the loss of one of the most wonderful, truly kind women to have shared our lives. We are better people because of her friendship. One must smile remembering all of the cats that were lucky enough to have found her! And George was most fortunate to share breakfast with Mary & Phil each Sunday he sailed with Phil. Mary, you are missed by all. May you rest in peace.
