“ Whenever Michael and Scott came to the dental office where Evelyn worked as a hygienist she would tell me about how they were doing. She always felt connected. I am very sorry for Michael's passing.

“ Michael, your sense of kindness and solid resolve to support our clinic's clients and staff for years at JFS is a legacy that will live on long after we're all gone. My heart is broken and somehow simultaneously full of warmth of what soon will be memories of your presence. You had a loving impact on our clinical work, our little workplace, and our personal lives. Under your supervision, dozens of clinical staff throughout the years have cared for thousands of people locally; all of us together will now forever carry within us a part of the healing light that is your presence and influence. Love and prayers to your dear family. The JFS Clinic Fam join you in prayer, sorrow, and sweet remembrance of our dear friend and colleague, Mike.

We are heartbroken. Michael has been our best friend for over 35 years. We were inseparable when we were young always laughing, eating, traveling. He was the best man in our wedding and in our lives. He was funny and so generous of heart and mind. Our world is forever changed without our beloved Michael in it. All our love and prayers to Lisa, the kids and all the Lubers.

Mike has, and always will hold a special place in the hearts of many of us. He had physical limitations but no limits. I learned so much from him about life, family, love and of course cooking. He would never teach me poker because he knew that my face would give his hand away if knew what I was looking at. He will always be one of the smartest, strongest, bravest, loving men that I ever had the great fortune to know. To Lisa, the kids, and family my heart breaks for each of you. Please count me as one of the many people who love you and are here for you. God bless. Ginger

Just hearing of this and am crushed. Michael and I went to Illinois together and again crossed paths after my spinal cord injury where he was counseling patients at Froedert. Just a giant of a human.
